

Sastri College

At Sastri College respect of cultural and religious beliefs is considered very important in order to promote unity and harmony. Multicultural education gives learners the opportunity to build understanding and communication skills across cultures. Part of our vision is to develop our cross-cultural skills and encourage positive attitudes between the various religious and cultural groups. In light of this, the Sastri College Muslim learners, Staff and Governing Body members hosted an Iftaar evening on Friday, 24 May 2019. Special guests from the Islamic Dawah Movement and the Turquoise Harmony Institute were invited to share their knowledge about the holy month of Ramadaan with other religious and cultural groups. Guest speakers also discussed the reason for fasting, prayer, reflection, community and charity. The programme commenced at 16:30 and ended at approximately 18:00. Light refreshments were served at the time of breaking fast. Learners and educators of the Sathsang group as well as the Christian assembly enjoyed the programme. We look forward to all faiths sharing knowledge and experiences in similar inter-faith programmes in the future.
